Following the tragic death of Eli Westlake (aged 21) in Sydney on June 7 2008, family and friends established The Smugglers of Light Foundation to provide assistance to young indigenous musicians and youth at risk by taking film-makers and musicians to indigenous communities to develop song-writing, story-telling, musicianship and performance skills.

Eli had a passion for contemporary arts, music and cross cultural ties & the foundation is an appropriate way to honor his memory.

June 7 is the first anniversary of Eli's passing.

To mark this day and raise awareness of the Smugglers of Light Foundation, Eli's parents Nigel (acclaimed composer) and Jan, along with his brother Joel have put together an amazing program of music and visual arts celebrating the life of their beloved Eli.

1pm Saturday June 6th – St Albans Gallery
